

109TH CONGRESS
2^D SESSION

S. RES. 361

Honoring professional surveyors and recognizing their contributions to society.

IN THE SENATE OF THE UNITED STATES

JANUARY 31, 2006

Mr. ALLEN (for himself and Mr. STEVENS) submitted the following resolution;
which was considered and agreed to

RESOLUTION

Honoring professional surveyors and recognizing their
contributions to society.

Whereas there are over 45,000 professional surveyors in the
United States;

Whereas 2006 marks the 200th anniversary of the end of the
Lewis and Clark landmark expedition through the upper
reaches of the Louisiana Territory and the American
West;

Whereas this journey is one of the most important surveying
expeditions in the history of the United States because of
the wealth of geographical and scientific information it
provided about the new Nation;

Whereas the nature of surveying has changed dramatically
since 1785, as it is no longer limited to the description
and location of land boundaries;

Whereas hydrographic surveys are important to the use of all our bodies of water;

Whereas engineering surveys are utilized in the study and selection of engineering construction;

Whereas geodetic surveys determine precise global positioning for such activities as aircraft and missile navigation;

Whereas cartographic surveys are used for mapping and charting, as well as photogrammetry, the science of using aerial photographs for measurement and map production;

Whereas many services are provided through the use of sophisticated equipment and techniques, such as satellite-borne remote sensing devices and automated positioning, measuring, recording, and plotting equipment;

Whereas the role of the surveyor has been, and remains, of vital importance in the development of the United States;

Whereas since the colonial days of this Nation, surveyors have been leaders in the community, Statesmen, influential citizens, and shapers of cultural standards;

Whereas former surveyors include George Washington, Thomas Jefferson, and Abraham Lincoln;

Whereas it was the work of the surveyor that determined the boundaries of land, the greatest economic asset in the colonies that became the United States;

Whereas Thomas Jefferson chaired a committee in 1784 to devise a plan for disposing of lands west of the 13 original colonies;

Whereas Thomas Jefferson argued that surveying before sale was necessary to prevent overlapping claim and to simplify deeds and registers;

Whereas Thomas Jefferson reportedly wrote a plan, which was debated in Congress and in modified form was adopted as the Land Ordinance of May 20, 1785, establishing the Public Land Survey System (“PLSS”), the rectangular system that continues today in 30 mid-western and western states; and

Whereas the establishment of the third week of March as National Surveyors Week would be a fitting tribute to all surveyors: Now, therefore, be it

1 *Resolved*, That the Senate—

2 (1) recommends the establishment of National
3 Surveyors Week;

4 (2) calls on the people of the United States to
5 observe National Surveyors Week each year with ap-
6 propriate ceremonies and activities paying tribute to
7 professional surveyors and their contribution to soci-
8 ety; and

9 (3) invites the people of the United States to
10 look back at the historic contributions of surveying
11 and look ahead to the new technologies which are
12 constantly modernizing this honored and learned
13 profession.
