SESSION DESCRIPTION

APRN led health centers have existed for decades, but recognition and funding have been challenging. This workshop would like to present a historical review of APRN led health centers in the United States followed by description of recent trends that greatly impact their relevance, such as funding through the Affordable care Act. Hopefully this workshop would help other providers, especially APRNs, to understand the different aspects involved in the creation and management of an APRN led medical home.

LEARNING OBJECTIVES

Upon completion of this session, the learner will be able to:

1. Discuss the historical background of NP managed health centers
2. Explain the need for NPMHCs
3. Describe the regulation of NPMHCs
4. Review NPMHCs funding
