

OCTOBER 16-18, 2014  
THE SENTINEL HOTEL, PORTLAND, OR

## SESSION DETAILS

Session #: 306  
Title: Pediatric Pharmacology Update  
Speaker: Teri Moser Woo, PhD, CPNP-PC, FAANP  
Date: Saturday, October 18  
Time: 11:10 a.m. - 12:25 p.m.

CE Contact Hours: 1.25  
Pharmacology Hours: 1.25

## SESSION DESCRIPTION

Pharmacology knowledge is constantly changing and expanding. This presentation will review what is new in pediatric pharmacokinetics, pharmacogenomics and federal drug regulation and impacts on prescribing for pediatric patients. Drug safety during lactation, drug shortages and FDA safety alerts will be discussed.

## LEARNING OBJECTIVES

Upon completion of this session, the learner will be able to:

1. Describe how current federal regulations impact pediatric drug development and labeling.
2. Discuss pediatric developmental pharmacology and how it impacts prescribing for children.
3. Develop a working knowledge on pharmacogenomic influences on prescribing for children
4. Identify appropriate resources for safe prescribing during lactation.

## DISCLOSURES

Conflict of Interest for Planners & Presenter:

- The planners of this CNE activity declare no conflicts of interest in the development and implementation of this educational activity.
- This presenter declares no conflict of interest. As faculty/presenter for this activity, presenter attests that they will provide the best available evidence for this content and present information fairly and without bias.
