Session Details

Session #: 118
Title: YOU Can Help Prevent and Treat HIV Infection
Speaker: Maria Kosmetatos, MSN, FNP
Date: Thursday, October 13
Time: 4:30-5:45pm
CE Contact Hours: 1.25
Pharm Hours: 0.25

Session Description

Come learn what HIV PrEP is all about and how you can incorporate this exciting prevention intervention into your practice. Identify how successfully controlling HIV viral load is crucial to preventing HIV transmission in HIV negative partners. Discuss successes and failures in identification and treatment of HIV infection in the US.

Learning Objectives

Upon completion of this session, the learner will be able to:
1. Describe the epidemiology of the current local/national/international HIV epidemic.
3. Define an “undetectable” viral load and how it can prevent transmission of HIV.
4. Define PrEP (Pre-exposure Prophylaxis) and how it can be incorporated into primary care.

Disclosures

Conflict of Interest for Presenter:
- The presenter(s) of this session declare no conflict of interest. As faculty/presenter for this activity, presenter attests that they will provide the best available evidence for this content and present information fairly and without bias.
