Session Details

Session #: 207
Title: Challenges of Treating the Older Adult with Psychiatric/Neurocognitive Disorder
Speaker: Laura Bryant, RN MSN
Date: Friday, October 14
Time: 11:30am-12:45pm
CE Contact Hours: 1.25
Pharm Hours: 0

Session Description

Providing information related to the difficulties and challenges of treating older adults with psychiatric conditions.

Learning Objectives

Upon completion of this session, the learner will be able to:

1. Distinguish between the basics of dementia diagnosis and the primary psychiatric diagnosis seen in the elderly.
2. Describe the stages of dementia and the associated behaviors.
3. Discuss the family dynamics when a family member has their first significant behavioral break or has a significant rapid decline.
4. Identify three important facts related to the care and treatment of dementia patients.

Disclosures

Conflict of Interest for Presenter:

• The presenter(s) of this session declare no conflict of interest. As faculty/presenter for this activity, presenter attests that they will provide the best available evidence for this content and present information fairly and without bias.
