Session Details

Session #: 314  
Title: Medical Marijuana Use in Kids  
Speaker: Teri Moser Woo, PhD, CPNP, ARNP, FAANP  
Date: Saturday, October 15  
Time: 3:15-4:30pm  
CE Contact Hours: 1.25  
Pharm Hours: 1.25

Session Description

Multiple states have approved marijuana for medical and/or recreational use. This presentation will examine the evidence regarding the use of medical cannabis in children. The pharmacologic and adverse effects of marijuana/cannabis in children and adolescents will be reviewed. Current and ongoing studies regarding safety and efficacy of cannabis use in children will be discussed.

Learning Objectives

Upon completion of this session, the learner will be able to:

1. Discuss historical use of marijuana.
2. Review pharmacology of cannabis.
3. Discuss current evidence regarding use of marijuana for medical therapy.
4. Discuss current evidence regarding illicit use of marijuana use by children and adolescents.

Disclosures

Conflict of Interest for Presenter:

- The presenter(s) of this session declare no conflict of interest. As faculty/presenter for this activity, presenter attests that they will provide the best available evidence for this content and present information fairly and without bias.
