

Session Details

Session # 217

Title: Knock Out Pediatric Concussion Management

Speaker: Madeleine Sanford, FNP

Date: 10/6/2017

Time: 4:30 PM

CE Contact Hours: 1.25

Pharm Hours: 0

Session Description

Learn to assess and manage concussion in the teen, with emphasis on the latest evidence for preventing post-concussive syndrome.

Learning Objectives

Upon completion of this session, the learner will be able to:

1. Describe the etiology and epidemiology of concussion and post-concussive syndrome in the older child/adolescent.
2. Identify tools to assess concussion severity.
3. Perform a comprehensive physical exam of the concussed patient.
4. Discuss recommendations for management and return-to-play, reviewing Oregon guidelines and current controversies.

Disclosures

Conflict of Interest for Presenter:

- The presenter(s) of this session declare no conflict of interest. As faculty/presenter for this activity, presenter attests that they will provide the best available evidence for this content and present information fairly and without bias.
