

Nurse Practitioners of Oregon

Treasurer's Summary 2023-2024 Sept. 27, 2024

Member dues for the Nurse Practitioners of Oregon go to pay for the services rendered by the Oregon Nurses Association (ONA). Therefore, all income generated by NPO is a result of revenue generated by our annual fall and pharmacology conferences. Revenue is directed towards supporting nurse practitioners within Oregon by developing programs and resources to further professional development and ensure advocacy.

Over the past few years since the pandemic, we have sustained annual losses. However, the losses have decreased over the past couple of years. It is unclear if this trend will continue. As with many things, the costs to host and present conferences have gone up significantly in recent years. As such, we plan to work to adapt to these changes going forward in order to help generate revenue for NPO. We will continue to re-evaluate how our investments are balanced to ensure we are optimizing our savings.
