Hands-on practice is extremely valuable to attendees! Topics offered at Symposium 2019 included Animal Training, Diagnostics, Wound Management, Post Release Monitoring, and more!

Hours of Hands-on Workshops and Seminars

6 Workshops and 4 Seminars

Hands-on practice is extremely valuable to attendees! Topics offered at Symposium 2019 included Animal Training, Diagnostics, Wound Management, Post Release Monitoring, and more!

Total Hours of Programming Available

Wide Variety of Sessions Daily

The Symposium week contains general topics and species specific information for attendees to move between. Recorded Sessions now allow for attendees to take even more information home with them!

Attendees

From 5 Countries

Attendees and speakers from a variety of countries gathered at Symposium 2019. Learning and networking together grows the community for wildlife rehabilitators to continue their work more informed and supported.

Connections Made

Community Builds Strength

Over 2,000 messages were sent on the Whova Event App during the Symposium! Time to connect and share information are some of many reasons attendees gather at Symposia each year!

Quote from 2019 attendee

“The variety of skill levels addressed and the wide variety of topics! There was something for everyone!”

Thank you to attendees, sponsors, our host center, and vendors! None of this is possible without each of you.
