Organizational Leadership Course Overview

Course content will include a mix of leadership and operations topics to build skills for organizational leaders.

The course will meet twice in January. These meetings will focus on getting to know your cohort group and begin to dive into leadership topics.

All course meetings will occur over Zoom for approximately 90 minutes each. Some meetings may run up to 2 hours.

After January, the course will continue with one meeting in February. Then meetings will shift to once, every other month through December.

Jessica Dolce will lead our October meeting. October’s content will focus on compassion fatigue impacts on individuals and teams.

Meetings will be interactive with a mix of discussion and workshopping of the content assigned to each month.

There will be an additional cost for books required for some months of the course.
