**The New York Schools Insurance Reciprocal
Presents an Exclusive Service to NYSIR Subscribers**
Hosted by the
Nassau BOCES
Health & Safety Training and Information Service

SCIENCE LAB SAFETY

NYSIR insures over 300 public school districts in NYS. We see challenges in science lab areas with safety equipment, failed lab mechanical systems, and improper supervision.

Among The Topics To Be Covered

- Lab Safety Principles
- Chemical Hygiene/Lab Standard
- GHS Standard and SDS Sheets
- Chemical Storage Guidelines
- Risks and Exposures for Labs
- Science Lab Incidents
- General Discussion

Who Should Attend: This free seminar is intended for your school district's Chemical Hygiene Officer, School Science Safety Officer, Science Department Chairperson, Science Instructors and the Facilities Director who may also wish to attend for chemical use and storage information.

Date and Location:

Monday, October 17, 2022

9:00am Registration,
