

**The New York Schools Insurance Reciprocal and Hartford Steam Boiler
present an exclusive service to NYSIR Subscribers**

A FREE One-Day Seminar on:

FUNDAMENTALS OF ELECTRICAL MAINTENANCE and OPERATION, MAINTENANCE, AND SAFEGUARDING BOILERS FROM FAILURE

Who Should Attend: Individuals whose responsibilities involve the maintenance, operation of and/or service on commercial electrical distribution equipment, as well as those responsible for the safe operation of the school's boiler system. This includes building/facilities maintenance personnel, custodial personnel, facilities managers, maintenance planners, Directors of Facilities, and Health and Safety Officers.

Topics Covered:

Electrical

- ❖ Overview of Electrical Preventive Maintenance.
- ❖ Recommended standards for implementing an effective Electrical Preventive Maintenance Program.
- ❖ Surge Protection.
- ❖ Emergency Generator Use/Safety/Maintenance
- ❖ Use of Infrared Thermography in Electrical Maintenance.

Boiler

- | | |
|---|------------------------------------|
| ❖ Boiler Identification and Application | General Boiler Operation |
| ❖ Controls and Safety Devices | Care and Maintenance |
| ❖ Maintenance and Test Schedules | Common Reasons for Boiler Failures |
| ❖ Basic Boiler Repairs | ASME and Jurisdictional Codes |

Seminar Goal: The focus of the electrical workshop is to introduce and reinforce the basics of proper electrical preventive maintenance for electrical distribution equipment to improve its efficiency, reliability, and safety, and prevent losses to this equipment.

The focus of the boiler workshop is to provide participants with a better understanding of the safe operation, maintenance, and inspection of low- and high-pressure boilers.

Date and Location:

Tuesday, April 23, 2024

**Ken Ton Elmwood Commons
AKA – Philip Sheridan Building – Community Room
3200 Elmwood Avenue
Buffalo, NY 14217**

Registration and Continental
Breakfast – 8:00 am

Seminar Begins at 8:30 am
and ends at 3:00 pm
