About This PDF Booklet

The PDF booklet contains a list of all plants and products found in past issues of the OAN Nursery Guide. Listings are arranged alphabetically within each main section in the same order as they appear in the book. If you ran listings last year, log in to NurseryGuide.com and select the My Listings link at the top of the page to view/change your listings from last year.

New Listings

You can use this booklet to add listings that did not run last year. Locate the product in the PDF booklet and indicate quantity in production or place an "X" in the appropriate column(s). Refer to the chart at right for the explanation of codes and abbreviations. Enter amount on the payment summary section of your order form.

Items Not in the Booklet

Every plant species, product and service that appeared in last year's OAN Nursery Guide is included in the booklet. Use the sheets on Pages 92 and 93 to add new varieties or products. One page is for plants, the other is for services and supplies. If you have too many new items to fit on the page, you may photocopy the form. Additional Items - Plant Material

Do you sell a plant that is not listed in the worksheet booklet? We can add it to our plant list. Please give both botanical and common name (where applicable) and note any trademarks or plant patents. It is helpful if you include a brochure or copy from a published reference for new cultivars that might not be listed in the horticultural reference books we use to check spelling and verify plant names. Attach additional pages as required. Use Page 94 for non-plant items.
