SPONSORSHIP GUIDELINES

Space Reservations

Sponsors are accepted on a first-come, first-served basis. Receipt of payment secures your sponsorship space. Contact Manisha Bhaskar at mbhaskar@oandp.org or (202) 380-3663 for more information about sponsorship opportunities.

Editorial Requirements

Sponsors may promote product(s) in their two-page editorial as long as the primary focus of the article is educational. Once the article is accepted for publication, a quiz is created based on the article content and placed in the Academy Paul E. Leimkuehler Online Learning Center (OLC). Clinicians can read the article in *The Academy TODAY* and then take the corresponding quiz to earn continuing education credits. Sponsors are encouraged to include clinical evidence and present material objectively.

Words Per Page

The maximum number of words that will fit on a page with a one-line headline, a one-line byline, and no artwork or subheads is approximately 825 (body text set at 10/12 pt on a 3-column grid). *The inclusion of a longer headline or byline, as well as a deck, subheads, pull quotes, bulleted lists, captions, images, etc., will take away from the number of words that will fit on a page. However, many of these elements make for a more attractive layout. Please use the information below as a general guide when adding elements to an article.

Editorial Elements

For each of the following editorial layout elements, subtract the following number of words from the maximum word count to find out if your content will fit on the page. All counts are approximate.

- **Headline:** For each additional line, subtract 30–40 words
- **Byline:** For each additional line, subtract 10–13 words
- **Subhead:** For each one-line subhead, subtract 20–25 words
- **Image (1 col x 1 1/2 in):** For each image, subtract 100–125 words
- **Caption:** For each line of caption, subtract 10–13 words

**The recommended length of the sponsored editorial is 1200–1300 words. Editorials that are more than 1650 words long will be returned to the sponsor for editing.*
