

O.D.I.P.

OHIO DATA INTEGRATION PLATFORM

MISSION: To create a scalable infrastructure for the network expansion and statewide population health.

VISION: To make measurable improvements in the quality and delivery of healthcare in Ohio.

UTILIZING AZARA DRVS

DRVS Turns EHR Data into Easy to Use Reports Using the Following Features:

- Population health & chronic disease management
- Care planning
- Regulatory compliance (UDS, Meaningful Use, PCMH, and more)
- Financial & operational improvement
- Risk, cost and transitions of care monitoring
- User-driven, ad-hoc analysis, dashboards and data graphics
