Diabetes Work Plan

Vision: The Diabetes Work Group will provide an innovative platform for collaborative engagement addressing diabetes prevention and treatment in Franklin County.
Values: Diabetes-serving partners working together to improve the prevention and treatment of diabetes through coordinated collaborative models.

Primary Prevention
- **Goals:**
  - Prevent Diabetes
  - Decrease Risk Factors for Chronic Diseases
  - Create a Healthy Environment
- **Metrics:**
  - # of walkable neighborhoods
  - # of grocery stores and supermarkets
  - Amount of fresh food distributed
- **Outcomes:**
  - Increase walkable neighborhoods
  - Increase healthy food access and availability

Secondary Prevention
- **Goals:**
  - Identify and Diagnose Prediabetes
  - Improve Access to Care
- **Metrics:**
  - # of individuals newly diagnosed with prediabetes
  - # of individuals with prediabetes who access a DPP
  - Identify funding opportunities
- **Outcomes:**
  - Increase prediabetes identification
  - Decrease # of residents with prediabetes who develop diabetes

Tertiary Prevention
- **Goals:**
  - Holistic Diabetes Management
  - Community Support and Empowerment
- **Metrics:**
  - # of providers trained in chronic disease management fatigue
  - # of support groups
  - % of diabetic patients with blood sugar, cholesterol, and blood pressure in control (HEDIS)
- **Outcomes:**
  - Increase provider knowledge of mental health in patients with diabetes
  - Increase “Know Diabetes by Heart” Awareness (AHA/ADA)
