

Medication Assisted Treatment (MAT) Programs in Ohio

Current Locations and Proposed Locations

Legend

- OTP Applicants
- OTP Facilities
- OBOT Facilities
- ADAMHS Board
- Counties

Map Information:

The following map shows locations of Ohio's MAT programs. Ohio has 115 office-based opioid treatment sites (OBOTs) and 39 federally licensed opioid treatment programs (OTPs). Additionally, 49 OTP applicants are displayed. Not shown are the active OBOTs who are still going through the Board of Pharmacy's licensing process, the sites that serve 30 or fewer buprenorphine patients, and stand-alone Vivitrol programs.

OhioMHAS anticipates nearly 50 new OTPs opening within the next 24 months. Some locations overlap one-another, so it may be difficult to see all current and proposed sites.
