

FREEZE PROTECTION SERVICE

SPECIAL HANDLING WHEN TEMPERATURES DROP

YRC Freight's Freeze Protection service keeps freight from freezing by monitoring outdoor temperatures, providing special handling procedures (like access to warm rooms throughout the network) and keeping freezable shipments moving on our faster network, utilizing Accelerated Service. In other words, no one is going to take any heat over cold-sensitive shipments.

MAKE YOUR ASSOCIATION MEMBERSHIP WORK TO YOUR ADVANTAGE.

- YRC Freight Freeze Protection service keeps products that freeze at or below 32°F/0°C intact.
- We have decades of experience protecting temperature sensitive products and a 99.8% claim-free rate for Freeze Protection shipments.
- Freeze Protection shipments use our Accelerated service, reducing exposure to cold weather by traveling on our faster network.
- Freeze Protection pickups are made Monday through Friday for service to all direct points in the continental U.S., Canada, and Mexico.
- Procedures are in place to protect your freezable shipments in transit, as well as over the weekend, using available warm rooms.

TO GET STARTED

1. Submit enrollment form at www.EnrollHere.net.
2. Enter association name in "Association Name Field."
3. Receive confirmation within two business days.

Your association — and, by extension, you and your freight — is in good company with YRCW. To learn more about how the YRCW team works with your shippers' association to benefit you, contact us:
