Target Audience

This activity is designed for physicians in primary care. Pharmacists, physician assistants, nurses, nurse practitioners and other health sciences professionals working in the primary care setting will also benefit greatly from attending this conference.

Learning Objectives

At the conclusion of this activity, participants should be able to:

- Develop a systematic approach for the evaluation of both acute mental status change and common dementia syndromes.
- Review the new and up-to-date paradigm for management of acute ischemic stroke.
- Develop hands-on skills through simulation training focusing on the neurological exam and the evaluation of an acute stroke presentation.
- Further your personal neurological knowledge by asking the experts questions about neurological care in the primary care setting.
- Describe the key factors that contribute to physician burnout and define strategies towards burnout solutions.
- Review the current evaluation and management strategies for common sleep disorders.
- Discuss the roles of neuroimaging and electrodiagnostics in the management of common neurologic diseases.

Lectures

Electronic access to course lectures will be made available to conference attendees. Please note there will be no printed syllabus for this activity.

Accreditation

The University of California, Davis, Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.
