Best of Show

Pictured at right is Richard Evans, C.R.A., and a black and white reproduction of his color print entry, which was awarded this year's "Best of Show" during the annual photo competition at this year's AAO. The exhibit committee had a bigger job than usual this year. Not only did they have the responsibility of judging, mounting, and displaying the photographs, they also saw a completely new exhibit area. It was bigger than the previous exhibit, and its layout made it much more accessible. Congratulations to everyone involved on doing a great job.

Thank You

I wish to thank and congratulate all of the meeting coordinators, faculty, participants, and support staff for helping make the 17th annual meeting and educational program of the O.P.S. by far the best attended program the O.P.S. has yet offered. It has been a great pleasure to have worked with you in my capacity as vice president, I know our new vice president will enjoy as much support, dedication and involvement from you as I have.

With sincere appreciation,
Alan Frischlein, C.R.A.
Past Vice President and Program Chairman
Ophthalmic Photographers' Society

C.R.A. Exam Dates Announced

The following is a list of dates and sites for the C.R.A. examinations being held in 1987:

- Long Beach, California: April 11, 1987

If you would like to take the C.R.A. examination, please call or write, requesting an application form.

Terrance L. Tomer, F.O.P.S.
Chairman, C.R.A. Committee
Ophthalmic Photographers' Society
C/O Wills Eye Hospital
9th and Walnut Street
Philadelphia, Pennsylvania 19107
(215) 928-3115

Call for Original OPS Documents

Mr. Don Wong, the OPS Historian, is starting an archive of Society papers, programs, correspondence, pictures, and publications. Any member with such records in his/her possession which would be suitable for inclusion are asked to write to Don listing the documents for possible submission to the Archive.

Deadline for submissions for next newsletter—February 15, 1987
Ophthalmic Photographers’ Society
First Board Of Directors Meeting
New Orleans, Louisiana • November 8, 1986

Members Present:
Paul Montague, President
Alan Frohlichstein, Vice President
Bonnie Carlstrom, Treasurer
Emery Billings, Secretary
Michael Copinger
Marlene Fishman

Invited Guests:
Denise Battett
Ken Timby, Jr.
Mark Maio
Terry George
Dennis Makes
Csaba Martonyi
Bruce Morris
Marsha Wright
Shelia Smith-Brewer
Larry Menin
Don Wong

1. President Montague called the meeting to order at 1:52 p.m. November 8, 1986.
2. Rochester Course 1987
Larry Menin presented the proposal for an advanced level course.
This course will attempt to meet higher level certification requirements. A faculty of 20 was presented including OPS members.
Kodak and RIT personnel.
The BOD approved the meeting plan.
3. Minutes from the Chicago 1986 BOD meeting
The minutes from the Chicago Board meeting, January 31-February 2, 1986 were accepted as read.
4. President’s Report: President Montague
The following BOD action was reported as a result of mail ballots:
a. JCAHPO personnel may attend OPS courses at OPS rates.
b. Honorary life memberships for two nominees were denied.
This denial was based on a lack of definition for the award protocol which is presently being redefined by the Bylaws Committee.
c. The purchase of a laser printer was approved.
d. The purchase of a computer for meeting registration and CEC records was approved.
5. Board of Certification Report
Earl Choromosik, chairman of the BOC, reported two meetings planned for 1986:
a. An extremely successful Rome meeting which was the first international meeting.
b. The annual meeting in New Orleans with a basic and advanced time line and three workshops.
   A Rochester meeting is being planned for 1987 as reported in item 2.
Certification testing meetings were held in Houston, Texas.
Long Beach, California, and Philadelphia, Pennsylvania. Sixty-three persons were tested, with 30 passing.
   Two certification meetings are planned for 1987: A meeting in California in the spring and one in Philadelphia in August.
Certification is working well with much credit due Ken Timby. Four complaints were reported from members.
The Dallas 1987 educational component is being developed.
The BOC recommends an entry-level course for 1988.
The BOC plans to postpone the master’s level of certification, and proceed with the Certified Ophthalmic Photographic (COP) level. This level will include slit lamp, endothelial, video and motion picture photography, as well as anatomy.
The appropriate degree of BOC independence was discussed.
Questions were raised relative to the proper interaction between the BOC and the BOD and whether the BOD needs to control and approve in detail all BOC plans.
The Board of Directors voted approval of the Board of Certification’s plans as presented.

6. Rome Report
Marlene Fishman reported the Rome meeting was an international success, with commercial support in the amount of $20,500. A great deal of valuable information has been collected which will be useful in planning future international meetings.
The OPS has been invited to participate in the next international meeting by the president of the International Congress of Ophthalmology.
7. Balloting Committee
President Montague read a report by Rita Harris, chairman of the Balloting Committee.
After the 443 ballots were counted and the election of new officers accomplished.
8. Keystone Meeting Report
President Montague reported that although the OPS had cancelled their participation with the BPA at the Keystone meeting, some OPS members participated as lecturers and workshop coordinators.
9. Editorial Committee Report
Marlene Fishman agreed to accept the position of Distribution Editor of the Journal with Ken Fong serving as Production Editor and Larry Menin as Associate Editor.
Although the Journal is two issues late, Marlene proposes the following schedule: One Journal currently being printed, three next year, and thereafter two per year.
The 1987 issues to include:
b. A May issue to include the Light Toxicity Symposium.
c. A Fall issue containing papers generated by the core editor approach.
   A group of core editors will be formed and utilized to present papers within their particular area of expertise. Scientific and instrumentation section papers will be actively solicited for Journal submission.
10. New Orleans Meeting Report
President Montague reported 354 pre-registered for the New Orleans courses. Registration of JCAHPO attendees has worked well.
Alan Frohlichstein offered that two people had been hired to handle the registration desk.
President Montague estimated this meeting would cost approximately $25,000 with receipts anticipated at about $30,000.
The New Orleans report was accepted.
11. Registration Computer Report
President Montague reported the purchase of an Epson computer for handling meeting registration and recording continuing education credits.
The OPS now has three computers in the following hands:
(1) Bonnie Carlstrom, Treasurer
(2) James Stoutenberg, Membership Chairman
(3) Ken Timby, BOC recorder of CECs

A laser printer was purchased for printing the directory. This reduced the annual directory cost from approximately $3000 to $1100.
12. Biomedical Communications Council
From his recent contact with the Biomedical Communications Council, Csaba Martonyi reported no specific advantages for the OPS in present joint efforts, but advised we remain in touch for possible future relations.
Second Board of Directors Meeting
New Orleans, Louisiana • November 11, 1986

Members Present:
Paul Montague, President
Ken Timby, Vice President
Denise Bartlett, Secretary
Bonnie Carlstrom, Treasurer
Mark Maio

Csaba Martonyi
Bruce Morris
Sheila Smith
Marsha Wright

Members Arriving Late: Michael Coppinger
Members Absent: None

1. President Montague called the meeting to order at 5:42 p.m. November 11, 1986.

2. Vacancy on the Board of Directors
President Montague reported that there is currently a vacancy on the Board of Directors. It is the task of the Board of Directors to fill the vacancy in accordance with the OPS Bylaws. President Montague stated that he is planning to assign major committee tasks to the directors at large for the purpose of centralizing the main duties of the BOD and administration. The filling of any vacancy must be approved by board vote.

President Montague presented Jim Stoutenburg as a candidate for the present vacancy. Jim's past contributions to the society, his current qualifications, and the fact that he is currently chairman of the Membership Committee were cited as assets to his candidacy.

The names of all previously nominated candidates and past Board of Directors members were discussed for the position:

- Ken Timby raised the possible questions of conflict of interest in having one board member serve on more than one board.
- President Montague stated that several members of the current BOD are serving on the Board of Certification, and that this was not in conflict with the Bylaws of the OPS.
- Mr. Martonyi submitted Terrance Tomer as a candidate. Mr. Tomer's extensive contributions to the society and his previous experience with board procedures were asserted.
- President Montague stated that one of the Board of Directors would be appointed Membership Committee Chairman, thus the person elected to fill the current board vacancy should not be chosen on this basis alone.

The Board of Directors discussed the above issues at length. Jim Stoutenburg was nominated and seconded. A unanimous vote, in the absence of Michael Coppinger, was taken.

Nomination of Jim Stoutenburg to the Board of Directors was received.

3. Official Minutes
The questions of what constitutes "Official Minutes" vs "Unofficial Minutes" was raised. President Montague stated that all discussion during board meetings would be entered into the official minutes, with the exception of particularly sensitive issues involving vote counts, balloting figures, etc. The importance of using good judgment in recording the official minutes was recognized.

4. Previous Board of Directors Minutes
President Montague directed the Secretary to provide all of the current BOD members with copies of the previous board minutes for the period of 1983-1986.

Michael Coppinger entered the room at this time.

5. Sustaining Membership Applications
President Montague presented four applications for sustaining membership.
- Olympus Corporation
- Byers Photo Equipment Company
- Fuji Film USA
- Carl Zeiss Oberkochen (East German Division)

President Montague clarified for the newer members of the board that a corporate division which received a sustaining membership is treated as that company's sustaining member. All sustaining OPS members receive a copy of the Journal and the Newsletter. Individual memberships may be held by individuals in non-opthalmic fields for the purpose of OPS participation.

President Montague at this time read a letter which was written to Mr. Gunter Ross of Medical Optical Instruments, by Don Wong, on July 30, 1986. The letter in essence thanked Mr. Ross for his interest in the OPS and welcomed him as a sustaining member. President Montague noted that this was not standard procedure for approving a sustaining membership; however, inasmuch as Mr. Ross had already been welcomed in good faith the acceptance would stand.

A vote by show of hands on the above four applications was taken. All four applications were unanimously accepted.

The 1986-1987 Journal Budget Report presented by Marlene Fishman as the first New Orleans Board of Directors meeting was reviewed and discussed. Items needing to be resolved are as follows:
- Approval of the 1986 Journal issue currently ready for printing
- Approval of funds for Marlene Fishman to attend an 8 week course in "Editing Skills"
c. Approval of expenses for publishing of ROME issue, Spring, and Fall issues for 1987.
d. Approval of funds for the installation of a telephone in the home of Marlene Fishman for Journal business use.
e. Approval of funds for stationary, letterheads, and business cards for core editors of the Journal.

The importance of resolving the budget for the current 1986 Journal, if the projected schedule is to be maintained, was emphasized. Items c, d, and e to be discussed at the next board meeting. President Montague will direct Marlene Fishman to proceed with the publishing of the completed 1986 Journal.

Item #2 was not approved following considerable discussion by board members.

7. Future Board Meeting
President Montague outlined the following items to be addressed at the upcoming Board of Directors meeting, to be held in January of 1987:
a. Final approval of the 1986-1987 Journal Budget. Approval of the budget for the ROME issue must be completed to maintain the 1987 schedule;
b. Clarification of the miscellaneous financial items presented by Marlene Fishman for the Journal Budget, prior to final approval of specific items;
c. The association and responsibilities of the Board of Directors/Board of Certification. The proper interaction between the BOD and the BOC needs to be defined.
d. Unauthorized use of the OPS logo.
e. Unauthorized use of the OPS mailing list.

Csaba Martonyi suggested that for the purpose of efficiency and time management of future board meetings that time limits be set on all BOD members, guests, and committee chairmen. Mr. Martonyi proposed possibly enacting Parliamentary rules to guide speakers. President Montague suggested that the BOD review Robert's Rules for Operating Procedures, at the next BOD meeting, with the goal of streamlining future meetings.

A date of January 9, 10, 11, 1987 was tentatively set for the next BOD meeting, pending review of schedules by members of the board. President Montague will mail a survey to all members prior to deciding on a final date.

8. Optometry and the OPS
A letter was read to the board requesting OPS support against Optometry legislation in general. It was felt that discussion of this item by the BOD would not be in the best interest of the society and that this issue could be handled outside the auspices of the Board of Directors.

9. Michael Coppinger moved for adjournment. The motion passed at 7:17 p.m.

Denise Bartlett, Secretary

Ophthalmic Photographers’ Society Business Meeting
Sheraton New Orleans Hotel • New Orleans, L.A. • November 9, 1986 • First Half

Members Present: 44

I. The meeting was called to order at 7:15 p.m. by President Paul Montague.

II. Ken Christopherson moved to accept the minutes as read. The motion carried.

III. Rome Meeting Report: Don Wong
Don Wong reported the recent Rome meeting was the OPS’s first international meeting. It was extremely successful with 125 registrants from 25 countries. The OPS is becoming recognized worldwide and has been approved as a satellite organization for the International Congress of Ophthalmology. An invitation has been received requesting OPS participation in the next World Congress in Singapore in 1990.

IV. Rochester Advanced Course 1987: Larry Merin
Larry Merin reported the second advanced Rochester course will be held jointly with Eastman Kodak at Rochester from April 25 through May 1st.

The course will be similar to the ‘85 Rochester course with the addition of Controversies in Ophthalmic Photography, Photomicrography, and a tour of the Eastman House.

There will be an endothelium, a slit lamp, and an external photography workshop, and an advanced technical program.

A faculty of experienced OPS members, RIT and Kodak instructors will serve as faculty.

V. The New Orleans Meeting: Alan Frohlichstein
Alan Frohlichstein reported that the lack of advanced courses in 1985 resulted this year in the inclusion of a third time line for advanced courses.

He thanked the faculty and other members who assisted with this meeting.

VI. President’s Report: Paul Montague
President Montague reported the highest registration in New Orleans of any OPS meeting.

The OPS exhibit has been refurbished and presents a much more professional appearance.

The BOD approved the purchase of a computer for meeting registration and CEC record keeping.

The recertification date of July 1, 1986, was upheld and every consideration was given to CRAs regarding credit for courses taken. Few problems were encountered.

The committee for the formation of an OPS code of ethics is gathering information. Final completion and acceptance of this probably will take one to two years.

The BOD gave permission to the BOC to proceed with the second level of certification. Certified Ophthalmic Photographers (COP), and to drop for the present efforts to formulate a master’s level of certification.

Bill Ludwick moved the report be accepted. The motion passed.

VII. Treasurer’s Report
Bonnie Carlstrom presented the treasurer’s report showing the following balances as of October 31, 1986:

<table>
<thead>
<tr>
<th>Category</th>
<th>Balance</th>
</tr>
</thead>
<tbody>
<tr>
<td>Journal</td>
<td>$14,950.96</td>
</tr>
<tr>
<td>General</td>
<td>$11,593.20</td>
</tr>
<tr>
<td>Combined</td>
<td>$26,544.06</td>
</tr>
</tbody>
</table>

It was noted that approximately $31,000 of New Orleans meeting receipts is still to be transferred from an Iowa account.

It was also noted that no New Orleans meeting bills have been paid.

The treasurer’s report was accepted.

VIII. Committee Reports
A. Awards Committee: Alan Frohlichstein
The report will be given at the banquet.

B. Bylaws Committee: Michael Coppinger, Chairman
Michael Coppinger reported the standing rules and the protocols are nearly in their final form. They will be presented to the BOD at the winter BOD meeting. The standing rules are non-
specific guidelines for the operation of the society and must have BOD approval. The protocol is the description of specific duties and the operation of all offices and committees, and is a changeable document.

Any member may receive information relative to a committee or office by requesting that protocol from the BOD Committee.

C. Fellowship Committee: Earl Choromokos, Chairman
   The report will be given at the banquet.

D. Grievance Committee: Jamie Nicholl, Chairman
   No grievances filed this year.

E. OPS Journal Report: Ken Fong, Editor
   Marlene Fishman read the report citing difficulties in obtaining enough manuscripts to adhere to planned publication schedules.

   One issue is now in production and one in pre-production.
   The committee reports efforts to develop new sources of manuscripts and a recent influx of papers has encouraged them that the two issue goal per year can be met.

F. Nominating Committee: Michael Coppinger, Chairman
   Michael Coppinger reported the nominating process had been completed and the election carried out.

G. Exhibit Report: Alan Fedorichstein
   Alan Fedorichstein reported the exhibit had been completely redesigned since last year and was much improved.

   Excellent photographic entries were received, with approximately 360 for the print division and 300 for the stereo division.

H. Long-Range Planning: Don Wong, Chairman
   Don Wong reported the committee will hold a meeting on Tuesday, November 11.

I. Balloting Committee: Rita Harris, Chairman
   Balloting was carried out with the following officers and BOD members elected:
   President: Paul Montague, CRA

November 9, 1986 • Second Half

I. New Business
   President Montague reported that there were no items of New Business on the agenda from the Board of Directors.
   President Montague called for items of New Business to be introduced from the floor.

A. Circulating Library
   Ken Christopherson proposed that the BOD consider development of a circulating educational library for use by the general membership. A request was made that the BOD evaluate the validity of this idea and the mechanisms of developing it.
   President Montague requested that Ken submit a one page report to the BOD for discussion at the next board meeting.
   It was proposed by a new member that a circulating library should include each year’s Scientific Exhibit winners.
   President Montague stated that one of the issues to be discussed by the new BOD members will be concerning the Scientific Exhibit. It was reported that the OPS has been approached by the Archives of Ophthalmology to publish the Scientific Exhibit winners in a special issue. President Montague acknowledged that while this was an honor, the BOD had not yet had the opportunity to make a decision on it. If it is decided upon favorably it may be that the exhibit photographs will not be available for dual use.

   Michael Coppinger reported that the BOD has discussed the development of a study guide. This study guide may well have a place in a circulating library.

B. Membership Directory
   Ken Christopherson requested that the BOD consider publishing the addresses and names of new OPS members on a sticky label in each issue of the Newsletter.

Vice President: R. MacKenzie Timby, Jr., CRA
Treasurer: Bonnie Carlstrom, CRA
Secretary: Denice Bartlett, COT, CRA
Board of Directors: Mark Maio
   Csaba Martonyi, FOPS
   Sheila Smith, COT, CRA

President Montague announced that the BOD vacancy of the past president will be filled at the next BOD meeting.

J. Research and Development: Bernard Smith, Chairman
   Bernard Smith reported the following initiatives:
   1. A collaborative effort has been undertaken between several countries to evaluate different films for fundus studies.
   2. A report will be presented at the Rochester meeting and in the Journal involving a study of the legal implications involved in vein puncture by non-licensed personnel.
   3. An FDA grant in the amount of $4,987 has been procured for a light toxicity study. A presentation is scheduled for Monday evening.

K. Newsletter Report: Mark Maio, Editor
   Mark Maio reported no problems with the Newsletter. An advertising charge of $10 per inch has been instituted.

L. Honorary Life Membership
   President Montague reported that no new names were approved this year for honorary life membership. Two names were submitted, but denied because the protocol for honorary life membership is not clear to the Board and presently is under redefinition by the By-Laws Committee.

M. Sweeping in of New Officers and Directors
   Emery Billings, secretary, administered the oath of office to the incoming officers elect (see item 1)
   Secretary Denice Bartlett, incoming secretary, recorded the minutes for the remainder of the business meeting.

Emery E. Billings, Secretary

These labels could then be removed and placed in individual directories.

President Montague stated that new members’ names and addresses had been published in the Newsletter on previous occasions. The BOD will need to evaluate the cost of printing removable labels. A means of developing such a system, without delaying the printing of the Newsletter, will be discussed.

William Ludwig pointed out that the Membership Directory is out of date by the time it is received by the general membership. He would like to see the directory list compiled after the annual meeting to allow inclusion of the names of new members who join the OPS at that time.

President Montague stated that with its current system, the Membership Directory will always be slightly out of date. Dues are collected in July. Late dues are held until August. A list of members is then generated and published several months later.

President Montague asked by a show of hands how many members would be in favor of publishing the directory after the fall meeting to include the names of new members and new officers.

A majority of hands reflected a decision that the BOD consider new ways to keep the directory contemporary.

It was noted that the BOD will consider ways to reintroduce the geographical information into the directory. This information had been deleted from the previous directory due to the difficulty in circumventing problems with the computer generated printout.

The BOD will also take into consideration the proposal by William Ludwig to include the cut-off dates for publishing in the directory.
C. Publications
The availability of publications on ophthalmic photography was questioned. A request for educational materials to be made available at the OPS meeting sites was made.

President Montague stated that the OPS makes it an open policy to allow anyone who has a publication pertinent to ophthalmic photography to leave flyers and/or a copy of the material at the registration stand. It was stressed that the OPS does not solicit nor endorse specific publications.

D. Computer Usage List
William Edelman requested that the BOD direct the Research and Development Committee to develop an ophthalmic photographer's computer usage list. This list would include a survey of the various types of digital imaging, storage, and retrieval systems.

President Montague requested Mr. Edelman to submit a one-page report to the BOD for review at the next board meeting.

E. Scientific Exhibit
Access to the Scientific Exhibit by OPS members not concurrently registered in the AAP program was pointed out to be unsatisfactory by several of the newer members. It was felt that OPS members should have admission to the exhibit included in the OPS program registration fee. It was noted that OPS members could contact the gatekeepers at the exhibit hall for a $25 pass with proof of professional affiliation.

President Montague stated that exhibit booth volunteers have access to the exhibit hall without charge. The AAP dictates rules for entrance into the exhibit. OPS members are not excluded from the AAP regulations and fees, thus it would be impossible to incorporate the AAP fees into OPS registration.

F. 1987 Dallas Meeting
President Montague reported that the hotel selected for the 1987 Dallas meeting is decided by the AAP, and is usually available by the middle of the year. This information will be published in the upcoming Newsletter as soon as available.

G. Journal Copies
A request from the floor for previous copies of the Journal was made. President Montague noted that back copies of the Journal could be obtained by contacting the Editor of the Journal—Mr. Ken Fang.

H. Member Call List
It was suggested that an information call list be generated for new members of the OPS seeking advice from other OPS members. President Montague pointed out that this was one of the functions of the Membership Directory. Bernard Smith noted that the Workshop Instructors provide an excellent source of reference.

III. Board of Certification Report: Earl Chromokos
The BOC submitted a report to the BOD on November 8, 1986, outlining the 1986-1987 CRA testing program. There were three testing sites in 1986 which generated 61 CRA's for 1986. Overall the testing was felt to be very successful. Most of the members of the BOC had the opportunity to become examiners during this year.

CRA Testing Sites for 1987: Long Beach, CA—Winter
Philadelphia, PA—Fall

Mr. Chromokos noted that recertification procedures have taken effect without much difficulty. The new system for polling and tabulating CEC's has been a tremendous improvement. CRA's seeking recertification will need 15 CEC (continuing education credits) in a 3 year period. If these requirements are not met the individual will be deleted from the CRA roster.

The next level of certification in ophthalmic photography is nearing completion. A study guide is being developed for the advanced level. The testing board will be comprised of members of the BOD, BOC, and outside professionals.

The Advanced Educational Program will be held in Rochester, New York, in April-May 1987. This will be a 5-6 day meeting which will include members of the BOC, OPS, and Kodak. This course will be geared towards those individuals seeking the higher level of certification.

The Annual Educational Program will be held in Dallas in November, 1987. An advanced time line has been incorporated into this meeting. There will be increased hands-on workshops in fundus and slit-lamp photography. There will also be workshops in Special Microscopes.

It was noted that the decision to offer only two courses per year was based on the need to concentrate them to maximize their quality. Good support systems allow for two well-organized and well-attended courses at the present time.

Mr. Chromokos expressed concern that the separation between the BOD and the BOC has become atrophic. It is desired that the BOC, as an executive collective, should remain autonomous in its decision-making procedures. It was recognized that this is a multi-faceted dilemma which will need to be discussed in depth at the next board meeting. An Educational Board, separate from the BOD or BOC, may need to be developed to serve the best interests of the society.

President Montague addressed the statement by Mr. Chromokos regarding the separation of the two boards. It was noted that the BOD is made up of the need for clarification of the roles and responsibilities of each. The current BOD Bylaws dictate that the actions of the BOC must be governed by the BOD. President Montague explained that this problem has resolved as a result of past practices of having members of the BOD and BOC serve simultaneously on both boards. At that time it provided better communication in the decision-making process; however, it has resulted in a major flaw in the way that the educational certification components function. The BOD is dedicated to solving this issue at the upcoming BOD meeting in order to initiate a more efficient operation.

IV. Membership Report: Jim Stautenburg
Current Active Membership: 1161
Sustaining Membership: 11 (11 out of 13 participating)
Honorary Life Membership: 16

946 Total Active Membership

It was noted that last year's total was 961. There were approximately 450 members attending the New Orleans program. President Montague called for any final business from the floor.

Martin Chipolak made the suggestion that the OPS consider showing the previous year's Scientific Exhibit display at the following OPS meeting site.

President Montague mentioned that he would investigate this proposal in greater detail.

V. Alan Feldstein moved for adjournment. The motion passed at 8:50 p.m.

Denise Bartlett, Secretary
