Annual Meeting News

The Personal Photography Forum returns again this year. Share your non-opthalmic images with fellow photographers. Slides or prints; black and white or color. Come to show, to look, or just to talk photography. Call Mark Maio if you would like to display photographs.

The Annual Awards Banquet with Keynote Speaker Ted Orland is a wonderful way to end the week. Experience a sumptuous meal shared with friends from the meeting, a smattering of awards, and an engaging after dinner discussion of photography by Ted Orland.

Ted Orland took up photography as a young art student working for designer Charles Eames. In the 70's, he became assistant to Ansel Adams and printer of Adams' Yosemite Special Edition Negatives.

Today, Orland lives in Santa Cruz, California, pursuing parallel careers in teaching, writing, and photography. A resident faculty member at Maine Photographic Workshops and masterclass teacher for University of California Extension, his writings include Scenes of Wonder and Corrosive, The Image Continuum Journal, the critically acclaimed Man & Yosemite, and his famous (or infamous) Photographic Truths poster.

His photographs are exhibited widely and appear in major international collections including the National Museum of Modern Art (Kyoto, Japan), the Corcoran Gallery of Art, and the Boston Museum of Fine Arts. His career has received additional support from the National Endowment for the Arts, the Oregon Arts Commission, Polaroid Corporation and the National Park Service.

The Educational Program for the 1991 Ophthalmic Photographers' Society Meeting is set for October 12-16. A veritable smorgasbord of courses awaits those who register for the 22nd Annual meeting to be held at the Disneyland Hotel in Anaheim California.

Traditional courses in general photography, fundus photography, and fluorescein angiography will be offered for those with little or no experience in the field. A new course, "The History of Ophthalmology," will trace the beginnings of ophthalmology, describing the use of crocodile dung and lizard blood as early remedies for blepharitis, chalazion, and cataracts.

A game show format for testing your ability to recognize, name, and describe a variety of retinal conditions will be introduced at this year's annual meeting with the course "Common Retinal Findings: The Jeopardy Game." Another new course, "Ophthalmic Pathology," will demonstrate a variety of common ocular findings as seen through the microscope. You'll be amazed to see just how large a choroidal melanoma can be!

Lecture courses will provide factual information as well as 'how to' tips for students. The techniques for instilling eyedrops and performing a flashlight examination will be demonstrated in the course "Ocular Pharmacology." A method for evertting eyelids and suggested techniques for corneal staining with topical fluorescein and rose bengal will be shown during the presentation "Common Corneal Diseases and Disorders."

Other "how to" courses will cover slit-lamp, portable fundus, operating room and external photography as well as lighting techniques for gross specimens, instruments, and patients.

Workshop offerings in fundus, stereo, slit-lamp, gonio-photography, specular microscopy and videography will provide students with an opportunity to practice their photographic technique using the latest camera equipment.

Students who already know "how to" will be pleased at the variety of courses concerned with the "why?". "Photography in Oculoplastics and Orbital Surgery" will show why photography is such an integral part of the management of disorders of the eyelids and oribits. "Common Corneal Diseases and Disorders" will demonstrate how important slit-lamp photography and photokeratoscopy are to the corneal specialist.

The "Advanced Specular Microscopy Symposium" will outline the value of specular photomicroscopy for the management of corneal disease and eye banking. The importance of photography in research will be discussed in "The Photographer's Role in Clinical Trials".

If you have chosen ophthalmic photography as a career, you may wish to attend the "Professional Advancement Forum" and "Administrative Issues in Ophthalmic Photography". These popular courses, with their open discussion and audience participation, often provide valuable information for both novices and established professionals.

Because many of the courses have a limited enrollment, you should register early. Bring your questions, problems, and samples of your work for review and discussion. Bring your curiosity!

Denise Cunningham, CRA

Support Group Volunteers Needed

If you are planning to attend the OPS Annual Meeting in Anaheim, and want to participate in the meeting, I invite you to join the support group in helping to monitor rooms, distribute and collect evaluation forms, and run AV. All volunteers will receive CE credits for the courses they monitor and waive the course tuition for monitoring. Volunteers make the meetings run, please help!

Decorate your walls and complete your Journal collection!
Exhibit posters, Journal back issues, and index available.

Index to the Journal of Ophthalmic Photography.

Most past issues of The Journal of Ophthalmic Photography are still available and may be purchased by those who wish to complete their collection. The cost is either $10 or $15 each (depending on the issue), plus shipping and handling. The 10-year index, covering the Journal's first decade (1978-88) and containing three informative sections (on authors, subjects, and topical contents) is also available for $4.

For orders, contact Marlene Fishman, Managing Editor, 1011 Cromwell Ave., Westchester, Illinois 60154. Telephone: (708) 345-5171, FAX: (708) 345-5190.
In the beginning there was only space... 

...a great, vast and open space needing to be filled so that all who would come could be enlightened. Be part of "the making of a workshop". Volunteers are needed to help unpack, set up and repack equipment for the Educational Workshops at the OPS Annual Meeting in Anaheim. If you would like to help please contact:

OPS Fun Run  
Tuesday, October 15 AM

You are sitting in a large banquet room in a hotel. The lights fade down, the slide projector hums and the speaker starts their presentation. Your attention starts to drift. Your eyes refuse to stay open. The meals and drinks just fuel you from one room to the next.

It's time to run with fellow OPS members to get the blood flowing, burn off the calories that accumulate from days of inactivity and stretch your legs. Don't leave your running shoes behind! For the hard-core runners, there is also a 10K race Sunday, October 13 at 7:00 sponsored by Chiron Ophthalmics.

"The secret to success is to make your vocation a vacation."

- Mark Twain

Scenic Port: forming a picturesque centerpiece for the Disneyland Hotel is an inland marina and Seaports of the Pacific, a bustling waterfront playground featuring recreation, shopping, dining and entertainment. Walking under waterfalls, feeding koi fish, dining on fresh seafood, sipping premium California wines, enjoying country western music and maneuvering pedal boats around the sparkling blue marina are just a few of the attractions found here.

Travel Information

Airlines:  
Continental has been designated the official carrier for OPS in 1991. Substantial discounts are being offered.

- A 50% discount off the regular coach class fare or;  
- An additional 5% discount off of the lowest applicable fare.  
- A 50% discount off the full first class fare tickets.

To qualify, reservations must be booked through our convention desk using our Toll-free and Easy Access Numbers 1-800-468-7022, Access # EZ 10F51.

Care Rental  
Make a date with General rent-a-car. Attendees are guaranteed the lowest rates available and General will back this up by adjusting their rates if you do find a better deal elsewhere.

As an incentive, General is offering extra one way miles with proof of arrival on Continental Airlines. Rates start at just $26.99 a day or $99.00 weekly for an economy car.  
- All rates include free unlimited mileage.

Call toll-free 1-800-327-7607 to make your reservations. Use Group and Convention Code AB0055.
Professional Opportunities
