- A. Previous minutes read and approved.
- B. We are making a template for managers to reply to our unsafe staffing reports: what questions do we want them to specifically answer instead of having them free write their responses.
- C. We need to start documenting on our staffing sheets how much time nurses are off the floor for codes or to CT or MRI with blood infusing, and how long they are in 1:1 situations in the room for chemotherapy or blood infusions.
- D. We may be doing an RN survey asking everyone when they have to leave the patient room to get something, what are they having to get most often.
- E. Tara from ONA is going to bring us a revised version of ONA's SRDF that we will most likely be replacing our old unsafe staffing reports with. This is so it will be easier for ONA to collate the information.
- F. Our next meeting will welcome members of our HB2800 committee so we can all discuss our staffing issues. Today we wrote down many of the issues specific to each unit so we can talk about them next time.
- G. Next meeting will be November 13, 2013 in the Starker Conference Room.
