Any provisions within the collective bargaining agreement restricting reassignment are suspended during the terms of this agreement.

The Union and Employer recognize the critical lack of Personal Protective Equipment (PPE) and the resulting variation from historic best practices that have been allowed by Oregon Health Authority and CDC. However, caregiver safety is of paramount importance to ensure continued delivery of patient care to the greatest number of patients. Therefore, any nurse who believes that the PPE and other precautions that are being provided are not in compliance with OHA guidelines shall follow the following chain of command:

2) Before taking an assignment, the nurse should determine whether adequate PPE is available for the patient being assigned. If the patient is a diagnosed COVID-19 patient or person under investigation (PUI) and the nurses believe that the assignment is unsafe to themselves because of lack of PPE, based on OHA guidelines, the nurse should identify the issue with their charge nurse.
3) If charge nurse cannot correct the issue, and the nurse wishes to decline the assignment, then they should do so by identifying the deficiency to the nurse’s supervisor by reference to OHA guidelines.
4) If they are ordered to accept the assignment by a supervisor, and the nurse again wishes to decline, the nurse should identify the non-compliance with OHA guidelines to the CNO or their designee at the following phone number_____________________ and submit an SRDF form to the Union and Employer.
5) If the CNO/designee still directs the nurse to accept the assignment, and the nurse refuses, the nurse shall be placed on paid administrative leave. No nurse who in good faith refuses a patient assignment based upon non-compliance with OHA PPE guidelines shall be disciplined.
