ONA is pleased to announce that the Providence Willamette Falls Medical Center (PWFMC)/ONA contract was officially ratified on June 7. Seventy-three percent of those who participated in the vote, voted YES. This contract provides our nurses with wage increases, increases in differentials, and bonuses for resuscitation and resource nurses. Nurses will also continue to accrue extended illness time (EIT) through 2020 with expanded ways to use their EIT benefit through 2021. We were also able to secure increases in paid time off (PTO) accrual rates.

Please note, we are reviewing the comments you provided on the ballots. Your feedback will help in future negotiations, as well as discussions during the life of the contract.

ONA will hold contract trainings soon to educate the membership about all the contract changes. Stay tuned for dates and locations. We will also let you know when the printed contracts will be arriving.

Be sure to visit the Providence Willamette Falls Medical Center bargaining unit page for more updates and information.
