About the Seminar

Allergy & Asthma Specialists Educational Foundation is presenting **BREATHE VII** Annual Allergy and Asthma Conference. The goal is to provide physicians, nurse practitioners, PAs and RNs and other health care professionals with current clinical information on common allergy and asthma topics.

Objectives: After attending the seminar, participants should be able to:

- Describe current asthma treatments and review guidelines for therapy.
- Describe indicators for allergy referral.
- Describe treatment options for food allergies, including sublingual immunotherapy and oral immunotherapy.

- Describe the proper maneuver for performing spirometry.
- Describe treatment options for exercise induced asthma.
- Describe treatment options for vocal cord dysfunction.
- Define common symptoms for VCD.
- Describe the different values that more formal lung functions provide versus. simple spirometry.
- Describe the proper inhaler techniques for asthma inhalers.
- Define how to manage common allergic conditions, including allergen avoidance, pharmacotherapy and immunotherapy.
- Describe typical manifestations of anaphylaxis.
- Identify common symptoms of an autoimmune disease.
- Identify the more common autoimmune diseases.
