Let’s take a step back and look at curation as a process.
Do you currently consider yourself a curator?
Who do you curate for? Yourself? Patrons? Students?
Why do you curate?
Do you go seeking resources or do you stumble upon them? Both?
Ask yourself...

How do you curate?
What do you use?
Do you use multiple tools?
Why did you choose those tools?
Ask yourself...

What do you do with your collection?
Working through the process
