Point-of-Care: CLIA Next Steps Open Discussion
Tuesday, March 12, 2019 at 8:30AM

Topics:

- I. Reminder that the PPA website is updated with resources (e.g. NACDC POC training, POC webinars, POC Toolkit, CLIA waver info, etc.)
 - A. Papharmacists.com > PPCN > Point of Care Testing
 - B. Papharmacists.com > PPCN > Patient Care Toolkits > Point of Care Mgmt
- II. Working on the verbiage for CLIA application for acceptance of PharmD's to be laboratory directors
 - A. Verbiage will be developed and sent out to use in the applications
 - B. Wait to apply until verbiage is completed and emailed
- III. References for creating training policies
 - A. Contact the manufacturer
 - B. Manufacturer can provide in-service trainings and training videos
- IV. Laboratory manual development
 - A. Refer to POC Webinar Module 6 for laboratory binder development
 - B. Policy and procedures are built into the manual
- V. Buying testing supplies
 - A. Research multiple vendors, wholesalers, and manufacturer to find the best price
- VI. A list of currently approved CLIA waved tests are available through the PPA website
 - A. Papharmacists.com > PPCN > Patient Care Toolkits > Point of Care Mgmt > Clinical Resources > Currently Waved Analytes (bottom of the web page)
