

Implementing Perinatal Quality Improvement Conference

March 7, 2019
New York

INSTITUTE FOR
**PERINATAL
QUALITY
IMPROVEMENT**

www.perinatalQI.org

QI Saves Lives!

Mothers and newborns depend on clinicians to implement safety bundles and evidence-based care practices.

Implementing quality improvement (QI) is challenging. Attend the Institute for Perinatal Quality Improvement's (PQI) interactive conference in order to increase your QI expertise, gain insights from your colleagues, and learn about practical QI tips and tools.

Target Audience

Perinatal registered nurses, physicians, or midwives who want to implement evidence-based care using QI improvement science methods in order to provide high quality and safe care to their patients.

Conference Objectives

- 01 **Quality & Safety Initiatives**
Describe how to develop and lead quality & safety initiatives using improvement science methods.
- 02 **Improvement Science**
Identify how improvement science methods can increase perinatal quality and safety.
- 03 **Action Plan**
Develop a custom quality & safety action plan.

"Great info and very organized" —2018 Conference participant

"Awesome conference!" —2018 Conference participant

Faculty

Debra Bingham, DrPH, RN, FAAN Founder, Executive Director of the Institute for Perinatal Quality Improvement (PQI); Associate Professor for Healthcare Quality and Safety, University of Maryland, School of Nursing

Mary Ellen Boisvert, MSN, RN, CLC, CCE, Clinical Assistant Professor, Community Nursing, University of Massachusetts Dartmouth College of Nursing

Time	Topics & Objectives	Speaker & Methods of Instruction
7:30 (60 min)	Registration Continental Breakfast	Sponsored by New York University (NYU) Langone Medical Center
8:30 (15 min)	Welcome and Introductions	Debra Bingham, DrPH, RN, FAAN Kathleen DeMarco, MSN/ED, RN, NE-BC, CPHQ, Senior Director of Nursing Aviva Kleinman, BSN, RN, CMNN, IBCLC
8:45 (15 min)	Current State of Perinatal Quality and Safety <ul style="list-style-type: none"> Describe the current trends in perinatal outcomes and disparities. Discuss the leading causes of maternal morbidity and mortality. 	Lecture Slides Q&A
9:15 (45 min)	Setting Perinatal Quality and Safety Goals <ul style="list-style-type: none"> Develop project goals based on the AIM quality metrics. Identify one quality and safety priority at your facility. 	Lecture Slides <ul style="list-style-type: none"> Project Charter Worksheet
10:00 (15 min)	Break and Posters	Break sponsored by NYU
10:15 (75 min)	Designing a Quality Improvement (QI) Initiative, Part 1 <ul style="list-style-type: none"> Develop a draft project charter using the MAP-IT QI Process Model. Discuss what is in and out of scope, what is an executive sponsor, who is on the action team. Identify the primary drivers and what are the causes and effects. 	Lecture Slides <ul style="list-style-type: none"> Project Charter Worksheet MAP-IT Worksheet Cause and Effect Diagram Worksheet QI Driver Diagram Worksheet
11:30 (30 min)	Examples of Quality and Safety Initiatives, Part 1 <ul style="list-style-type: none"> Identify how to enhance implementation facilitators and mitigate implementation barriers. 	Panel Presentations Group Discussion

Time	Topics & Objectives	Speaker & Methods of Instruction
12:00 (60 min)	Lunch and Posters	Lunch on your own
1:00 (60 min)	Designing a Quality Improvement (QI) Initiative, Part 2 <ul style="list-style-type: none"> Describe facilitators and barriers to QI implementation. Discuss how to tailor implementation strategies and tactics. 	Break into small groups to discuss enhancing implementation of: <ul style="list-style-type: none"> Postpartum Hemorrhage safety bundle Hypertension safety bundle Baby-Friendly Guidelines PostBirth Discharge Education Maternal Fetal Triage Index NICU Neonatal Abstinence Syndrome SpeakUp Others as group interest dictates <p>Share insights with each other in the small groups and then with the larger group.</p>
2:00 (15 min)	Break and Posters	Break sponsored by NYU
2:15 (75 min)	Examples of Quality and Safety Initiatives, Part 2 <ul style="list-style-type: none"> Identify how to enhance implementation facilitators and mitigate implementation barriers. 	Small Group Representatives and Select Poster Presentations
3:30 (30 min)	Can QI Cause Harm? <ul style="list-style-type: none"> Discuss how to develop a work plan. Describe ethical considerations of QI and identify the difference between QI and research. 	
4:00 (30 min)	QI Next Steps <ul style="list-style-type: none"> Discuss next steps for implementing the QI project charter 	
4:30	Adjourn	Thank you for participating in the conference!

Continuing Education Credits

An application for Continuing Nursing Education 5.75 contact hours has been submitted to New York University Langone Medical Center Nursing Department. CME is not offered.

Conference Registration

	Early Bird	Regular
	Includes the PQI Implementation Workbook, (\$49.99 value) if registered on-line or postmarked before January 15, 2019	Includes the PQI Implementation Workbook (\$49.99 value)
PQI Premium Facility or Health Professional Subscription	\$158 per person	\$176 per person
All Others	\$198 per person	\$220 per person

Added Value

Each learner will receive a copy of the Institute for Perinatal Quality Improvement (PQI) Implementation Workbook. The PQI Implementation Workbook includes improvement science tools, perinatal examples and reference materials. Each learner will use their workbook during the conference to design and record their draft action plan, record their draft project aims, develop a draft logic model, and a draft driver diagram.

Register by going to PerinatalQI.org/events/

Payment must be received no later than midnight on March 7, 2019. We also suggest that you register for the conference no later than February 21, 2019 in order to assure that a workbook can be made available to you.

Mail checks payable to the Institute for Perinatal Quality Improvement to: 211 East Lombard Street, #252, Baltimore, MD 21202. For more information about hotels and PQI's cancellation policy go to PerinatalQI.org/events/
