

Dear APSA Member,

### [Know your options for funding allowances](#)

Winning a grant as a trainee is a huge accomplishment! But that doesn't mean you have to put your personal life on hold.

Did you know that there are options available for trainees with funding to take leave of absence, or even extend their grant awards? The [NIH Research Training Website](#) is a great resource for more information! Details specific to NRS Awards (F30, F31, F32, T32) can be found [here](#). There are also allowances in place for trainees to spend 10 hrs/week in part-time employment incidental to their training (e.g. teaching, clinical employment, etc), which you can learn about [here](#).
