\*\* **30% tax credit** on qualified visual effects expenses incurred within the New York Metro and **35% tax credit** on visual effects expenses incurred outside of the New York Metro Area

# NEW YORK STATE VFX TAX INCENTIVES

New York State has 3 separate incentive programs as it relates to **Scripted Feature Films & Episodic Series**. There is the Production Incentive, Post-Production Incentive, and Visual Effects Incentive. Each incentive program has its own separate qualifications and thresholds to be met. If filing for the Production Incentive AND a project qualifies, then all the thresholds for Post-Production and/or Visual Effects go away and any amount of qualified Post & VFX is eligible for the 30-35% incentive. This is only the case when filing for the Production Incentive.

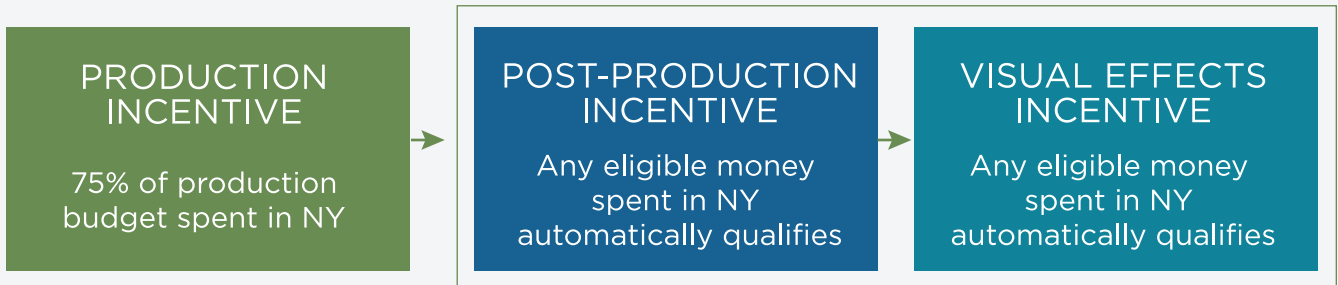

## THE SEPARATE INCENTIVES & THEIR THRESHOLDS

(WHEN FILING INDIVIDUALLY):

## THE SEPARATE INCENTIVES & THEIR THRESHOLDS

(WHEN ALREADY FILING PRODUCTION INCENTIVE):

It's important to remember that the Post-Production Incentive applies **to all eligible post-production expenses** minus costs for visual effects since visual effects has its own incentive.

We highly recommend you file a Visual Effects Incentive Application, whether or not you are planning to do visual effects in NY or visual effects at all. In our experience, the plan for Visual Effects is always changing and new decisions are made at the very last minute. It doesn't cost anything to file for the Visual Effects Incentive and it shouldn't take more than 30 minutes of your time to complete.

There are only 4 scenarios a production will fall into when it comes to doing VFX in NY. On the next page, we've illustrated each of those scenarios to help you determine which one your production falls in. This will help you determine how you can take advantage of the NY tax incentives specific for Visual Effects.

# NEW YORK STATE VFX TAX INCENTIVES
