# 10<sup>th</sup> Annual Current Concepts in Medication Safety

## March 27, 2019

### Intended audience

This program is designed for physicians, advanced practitioners, nurses, pharmacists, pharmacy technicians and respiratory therapists. This program is also intended for healthcare professionals who wish to decrease the incidence of medication errors.

### Objectives

At the completion of this course, the participant should be able to:

- identify the scope, complexity and implications of medication errors that can extend well beyond our interaction with the patient
- discuss current concepts and evidence-based practices that exist to assist in providing error-free care to our patients
- examine the human factors, organizational culture and the accountability needed to prevent medication errors
