Research Incubator

WHAT IS IT	The aim of the Research Incubator is to allow students (undergraduate, graduate, and/or postgraduate) and faculty to come together and support one another in carrying out a research project, through both collaborative efforts and individual institution projects. *The Research Advisory Committee of Psi Chi will allocate money to facilitate research success through the Psi Chi Implementation Research Grant*
INITIAL MEETING	May 15th and May 22nd on Zoom - both occur at 11am EST
REGISTRATION DETAILS	To apply to be a part of the Research Incubator, Psi Chi members will need to complete the form provided through the QR code. In this form, members will be asked for their names, university, email addresses, contact information for a faculty member (if the proposer is not a faculty member themselves), a commitment to the goals and protocols of the Research Incubator, along with providing a brief idea that they plan to bring to the meeting. This idea is not expected to be fully (or even largely developed); however, we expect participants in the incubator to come prepared with idea/s they are interested in pursuing.
ADDITIONAL INFORMATION	The incubator will be a space for researchers of varying levels of experience to come together and motivate one another to complete a research project and provide an opportunity for the creation of collaborative studies.* **If attendees do not want to continue working on a proposed project after the first meeting they are not obliged to commit to it. If you attend the meeting and do not contribute to the project after the meeting you will relinquish your rights to authorship rights if you step away from the project.*
CONTACT FOR QUESTIONS	If you have questions, please contact John Edlund at jeegsh@rit.edu, Gabriela Heermans at gheerman@uvm.edu or Caitlin Brez at cbrez@unca.edu.
