Let’s Connect in Exciting New Ways!

This year’s Presidential theme is #ConnectWithPsiChi led by Dr. Ngoc Bui. In the months ahead, get ready for new mentorship programs, an internship database, virtual coffee hours, and more—all geared to help students, faculty, and alumni develop lasting professional relationships.

Three Methods to Get Started

1. In difficult times, Psi Chi continues to support members, so be sure to take part in the new #ConnectWithPsiChi Membership Drive. Discover prizes, tips, and a special message from Dr. Bui.

2. Psi Chi’s International Partners and Leaders (IPALs) program will pair your chapter with another so that you can collaborate virtually and develop friendships. Learn about connecting with a chapter in a different country.

3. Share your chapter’s recent activities. *Eye on Psi Chi* magazine welcomes photos and brief summaries. Submit by Sept. 30 (Winter Issue) or Dec. 15 (Spring Issue). We also welcome faculty-written magazine columns and features.
