DATE: May 3
TO: Advisors and Officers
SUBJECT: The Online Solution for Member Processing

Advisor and Officer Appreciation
This has been a tough academic year transitioning back to on-campus classes, and we want you to know how much we appreciate your dedication to Psi Chi members. Because of you, a whole new world of opportunities awaits future graduates. Thanks for sticking it out, and let us know over the upcoming break how Psi Chi Headquarters can support you.

The Online Solution for Member Processing
This summer, join almost 600 chapters that have already transitioned to the new Individual Payment Processing System. This online solution allows new members to pay their fees with a credit card, which saves valuable time for advisors and students. To get started, fill out this brief web form.

Thank you to the 124 advisors who recently provided feedback on our member processing. We were delighted to find that 85% using the new process were either satisfied or very satisfied, as compared to 58% using the earlier system. The survey is still open. We look forward to continuing to enhance the new system to best assist our chapters!
LEARNING RESOURCES

Explore Psi Chi’s Learning Resources!
