New Membership Benefits:
Psi Chi Now Offers Personalized Professional Support

Exciting news! Experts across many fields of psychology recently united to establish a network that offers personalized professional support for all Psi Chi members. Students, visit your Member Dashboard (see Member Benefits dropdown) to access two new special opportunities:

1. Ask an Expert
Are you unsure which scale to use for your next research project or maybe you can’t decide how to interpret a professor or peer-reviewer’s feedback? You can now submit a psychology-related question that will be answered by our panel of experts. A variety of areas to choose from (e.g., social, cognitive, developmental) will help us assign an appropriate expert. All questions should be answered in approximately one week via email and within your member profile. Limit to three questions per semester.

2. Request a Mentor
Students can now request a mutually beneficial professional relationship with a mentor through Psi Chi’s Request a Mentor
program. Tell us what you desire to gain through your mentorship so that we can pair you with a suitable mentor. You may choose an ongoing mentorship over a mutually agreed upon time frame with your mentor, or you can elect for a short-term mentorship for academic or career coaching needs.
