Beyond Celebration—
Take Action This Mental Health Awareness Month

Everything we do in psychology connects to mental health. To help you include mental health learning in your college courses, we are excited to introduce Psi Chi’s new Mental Health Awareness Online Resource. Browse useful content, ways to get mental health support, and crisis hotlines—all of which you can share with your students.

Most of us know at least one person who has struggled with mental illness. Help us create a brighter future by making a donation to Psi
Chi’s new **Christian Ladd Hall Scholarship for Mental Health Advocacy**. Once fully funded, this scholarship will provide $3,000 per year to a student training with an emphasis on mental health advocacy. The recipient will also be able to request up to $1,000 for a mental health program in their community. Thank you for helping us build the next generation of mental health advocates.

**MENTORSHIP**

**Calling All Mentors**
Students can now request a mutually beneficial professional relationship with a mentor through our website for a set time frame. If you are looking for a great way to impact psychology’s future leaders, please [sign up to be a mentor](#). We have had a great response from students, and we are especially in need of Clinical/Counseling mentors. Please consider participating!
