DATE: August 15  
TO: Alumni  
SUBJECT: A Mentor for Every Psi Chi Student That Needs One!

Our Long-Term Goal:  
A Mentor for Every Psi Chi Student That Needs One!

This is ambitious goal, to be sure. But we’ve learned that anything is possible with Psi Chi members.

Since launching Psi Chi’s Request a Mentor program this spring, 124 alumni and faculty have already joined to provide virtual, one-on-one mentorship advice to students. Today, please sign up too so that we can connect you with students who would benefit from your career experiences and guidance.

Here’s how the Mentor program works: Subject areas ensure relevant matches, and you will receive an email when a student requests your support. We only ask that you agree to one or more sessions each year, and you can schedule it on Zoom or the platform of your choice.
Mental Health Video Contest Winners
Congratulations to Milly Lopez (California State University San Marcos) and the Psi Chi Universidad de Sonora Chapter, the first- and second-place video contest competitors. Watch their videos to uncover some of the many meanings of mental health advocacy.

Help Create a More Mental-Health Friendly Future
When you support the Christian Ladd Hall Scholarship for Mental Health Advocacy, you are making a difference to students studying mental health advocacy. Psi Chi President Dr. Shawn R. Charlton invites you to share this flyer about the scholarship and please make a donation today.
