A NOTE TO MEMBERS

This year’s program

This year there are 397 papers on the program, as compared to 454 in 1977 and 456 in 1978. The number of papers submitted for this year’s meetings was down approximately 10% compared to last year. As in the case of last year’s meeting, I attempted to group papers that indicated similar interests. The titles of the sessions tend to be general, although in a few cases they are reasonably specific.

One change made on this year’s program is that most sessions are to be chaired by two people, one chairing the session to a break and the other chairing the session after the break. This step was taken in response to a suggestion which hopefully will keep chairpersons more “into” the session.

A visit of USSR psychologists

A group of psychologists of the Soviet Union who plan to visit the United States have indicated that they desire to attend the meetings of the Society. An invitation was sent to them, but at the time of publication of this Program, no response has been received. The status of such a visit is thus uncertain. However, you will note on the program that a block of time has been set aside on Friday evening for some type of meeting or informal discussion with these individuals, if they indeed come. Any further information regarding this matter will be announced at the meetings.

Smoking

We would very much appreciate no smoking in rooms when papers are being given.
