

Psychotherapy Research News and Upcoming Issues:

Starting this year, the our Journal, Psychotherapy Research will be coming out in print bi-monthly. We will have three double issues a year and this will save the society some small amount of additional money to support for example young investigators or student travel awards. See the upcoming articles also on our website under <http://www.tandfonline.com/toc/tpsr20/current>

Again we are grateful to the journal's authors, readers, reviewers, advisory editors and associate editors. Thank you! We all will continue in our commitment in making Psychotherapy Research the premier international psychotherapy research journal, and we strongly encourage you to:
