February 8th, 2022

17:00 CET

The Society for Psychotherapy Research warmly invites you to the “Next Gen” colloquium, a bimonthly digital event where young scholars can meet and discuss, a space for presenting work-in-progress research, innovative theories and methods in an informal environment. In our first 2022 meeting we are pleased to host our Chapter President for an invited talk on the topic of therapist responsiveness. Share the word, come one, come all!

Ueli Kramer, PhD
EU-SPR CHAPTER PRESIDENT

Invited talk

“Six lessons learnt about therapist responsiveness in psychotherapy”

The talk will be followed by a Q&A session and open discussion.

*Do you have any question? Are you interested in presenting?
