Preface

Dear Colleagues,

SPR has the pleasure of welcoming you to Montreal at the Centre Mont-Royal for the 36th Annual Meeting of the Society for Psychotherapy Research.

The traditional annual meeting includes a scientific program with more than 400 presentations by researchers from more than 20 countries. In addition to the Presidential Address offered by John Clarkin, PhD, the program includes 62 Panels, 23 Paper Sessions, 8 Pre-Conference/ Conference Workshops, 3 poster sessions with 93 presentations, and two Plenary Sessions. Every effort was made to organize events with similar contents at non-competing time slots based on the key words used by authors in identifying topic areas.

You will find a first author index, a topic index and various maps and plans in the back of the program. There will be notes about the meeting posted at the registration area in case of cancellations or other variations from this printed program.

We look forward to a successful meeting with a rich, and lively interchange between presenters and participants. It is our hope that the program will encourage the advancement of knowledge and collaboration between those in attendance.

On behalf of the Program and Local Organizing Committees

Michael J. Lambert
J. Christopher Perry
Erhard Mergenthaler
