Preface

Dear Colleagues,

SPR has the pleasure to welcome you in Rome at the Aurelia Convention Centre to the 35th Annual Meeting of the Society for Psychotherapy Research.

Our Annual Meeting is an important date, which has become a tradition. We believe that the scientific programme with more than 600 presentations from more than 22 countries all over the world will offer a wide variety of topics and interesting new data.

Besides the Presidential Address, three Plenaries and three Poster Sessions with a total of 172 posters, we will have four Pre-Conference Workshops, two Research Consultation Workshops, four Open Discussions, three Conference Workshops, 233 papers grouped into 76 Panels and 84 papers grouped into 21 Paper Sessions. Most of these events are organized into time slots with nine parallel sessions each. Based on the topic you have selected when submitting your presentation we took care that almost no topic will occur twice within the very same time slot.

The meeting rooms are located in Crowne Plaza Hotel and Domus Pacis Hotel five minutes walk from one to the other.

You will find a first author index, a topic index and various maps and plans in the back of the program at your convenience. Please pay attention to note displays at the registration area for further information, cancellations and other changes that came in after printing this brochure.

We look forward to a successful meeting and wish you a creative debate among researchers.
