*Challenges and Solutions in the Era of Targeted Radionuclide-based Therapy*  
Big Sky Resort | Big Sky, MT  
March 4-6, 2020

# Welcome to the Radiation Research Society's 2nd Winter Workshop

The Winter Workshop series was introduced in 2018 to allow in-depth discussions focusing on one topic of relevance to radiation therapy. Radiation Research Society's (RRS) Winter Workshop features both contributed and invited papers from all fields of radiation research, particularly physics, chemistry, biology, medicine, and epidemiology. The workshop setting, gathering experts and researchers actively working on the topic provides an ideal environment to develop collaborations across institutes. Poster presentations, complementary to the oral sessions, provide a more informal opportunity for communication between the attendees.
