

Richmond Academy of Medicine Member Announcement

**Drs. Randal West, Jori Carter, Ruth Felsen and Diane Cox
have joined forces at
Women's Cancer and Wellness Institute**

Drs. Randal West, Jori Carter, Ruth Felsen and Diane Cox have joined forces to focus on the comprehensive care of women with gynecologic and breast cancer, as well as benign breast conditions and complex benign gynecologic conditions.

Dr. West and Dr. Carter are gynecologic oncologists who diagnose and treat gynecologic cancers such as ovarian, cervical and uterine cancers. They provide comprehensive care including surgery, chemotherapy and survivorship. Dr. West and Dr. Carter also perform complex gynecologic surgical procedures for benign gynecologic disease.

Dr. Felsen and Dr. Cox are breast surgeons who diagnose and treat benign and malignant breast disease. Mammography and breast ultrasound are available in their office. For patients who have been diagnosed with cancer, they counsel patients regarding treatment, perform breast cancer surgery and also coordinate multidisciplinary care.

The practice also provides breast and gynecologic cancer risk assessment, genetic counseling and genetic testing services. Guidelines for genetic testing are expanding, and they are happy to evaluate any patient with a personal or family history of cancer to determine whether testing is appropriate.

They look forward to serving patients with the goal of providing timely, efficient, compassionate and excellent care for patients with breast or gynecologic cancers and make every effort to see patients with urgent concerns within the next office day.
