This CKD: Identification and Action Plan Poster can be used as a quick reference to:

1. **Classify stages of CKD**
2. **Understand the actions recommended**  
   (Please note: the actions associated with earlier stages are needed regardless of the individual patient’s stage at presentation.)
3. **Suggest appropriate time frames for consult or referral to a nephrologist**
4. **Identify individuals at high risk for developing CKD and indications of kidney damage**
5. **Advise of progression risk factors**
6. **Alert to potential complications**

The poster is identical to the CKD: Identification and Action Plan Card, without the concise guidelines that are included in the card.
