

FUTURES FORUM

**OFFSHORE WIND IS POWERING UP
WE WANT YOU TO BE PART OF THE JOURNEY**

FUTURES FORUM @ GLOBAL OFFSHORE WIND 2020

**STUDENTS, THIS IS
YOUR OPPORTUNITY
TO GET A HEAD START
IN OUR WORLD-LEADING
INDUSTRY.**

Offshore wind is a crucial part of the UK's road to decarbonisation. By 2030, the wind turbines off our coastline will be the backbone of a green electricity system.

But as our industry grows, we need thousands of passionate individuals with the drive to turn concepts on paper into the high-tech wind farms generating the renewable energy our homes and businesses need.

ATTEND FUTURES FORUM:

- Hear about the career paths into the industry, including apprenticeships, graduate schemes and entry-level roles.
- Get all the tips and tricks to stand out as an applicant and pave your way to a successful career in renewables.
- Meet and network with senior figures as well as the professionals starting out in the industry today.
- Learn about the cutting-edge technology powering our industry forward, from robotics that survey the seabed, to drones that analyse turbine blade performance.

PLUS: Access all Futures Forum and Global Offshore Wind sessions on demand for 30 days after the event.
