

Small System Operator Training:
Achieve and Maintain Compliance with the SDWA

SDWA Workshop Introduction PARTICIPANT HANDOUT

Overview:

Welcome to the RCAP/AWWA site. Here are some key resources that you will find useful.

Learning Objectives:

At the completion of the SDWA Workshop Introduction lesson, participants should have the ability to:

- Describe the purpose of the Regional Community Assistance Partnership (RCAP)
Access and obtain information from the RCAP website and identify free RCAP resources
Access the awwa.org website and obtain information on AWWA resources available to small systems
Present instruction of AWWA/RCAP small systems workshop lessons and facilitate workshop localization

Key Concepts:

Additional AWWA Resources
Community Engineering Corps
Partnership Programs

AWWA has a variety of resources available to small systems. Visit the awwa.org website for more information.

Notes:

Series of horizontal lines for taking notes.

Additional AWWA Resources
Small Systems Resource Community
The Water Equation

Certificates of Completion

If you need a CEU certificate, you will need to confirm the following on the roster today before you leave:

- Is your name clearly spelled correctly?
- Did you provide an email address UNIQUE TO YOU? (do not use "info@" type of email address)
- You must have an account on awwa.org to receive a certificate from AWWA and the email address you provide on the roster must match the email address registered to that account.
 - If you do not have an account on awwa.org or if the email address you provide on the roster does not match the email address on your account, we will not be able to issue you a certificate until you create an account or update the email address on your account to match the email you provide
 - If you have any issues with registering on awwa.org please contact Customer Service at 800.926.7337 or at service@awwa.org

If you have questions about receiving or accessing your certificate, contact educationservices@awwa.org

AWWA will apply to the water operator state licensing agency for CEU preapproval when applicable. You may be awarded CEUs by your agency. It is your responsibility to confirm with the agency that training meets relevancy criteria established for your license type, as some agencies may not apply CEUs to your license if the training topic is not relevant to your position.

AWWA awards: 0.1 CEU = 1 contact hour or 1 Professional Development Hour (PDH)

Questions? Please contact educationservices@awwa.org.
