- Jerry Popp, MAP Technical Assistance Provider

Developed by American Water Works Association with funds from the U.S. Environmental Protection Agency, Published 2015

Additional RCAP Resources

RCAP is a national non-profit providing training and technical assistance to small communities on water and wastewater issues.

RCAP has over 160 field staff including certified operators; engineers; and specialists in utility management, finance, and administration. RCAP is funded by federal agencies and state contracts, and provides free services across the United States and its territories.

More information can be found at www.RCAP.org.

Additional AWWA Resources

Volunteers from an alliance of more than 200,000 technical professionals and students from

Our Mission

Bring underserved communities and volunteer engineers together to advance local infrastructure solutions

What can we do for you?

Our professional and student volunteers provide short-term engineering assistance to underserved communities facing challenging financial, technical, or manpower situations. Our network has experienced engineers looking to help you with water, wastewater, mechanical, civil, structural, energy, agriculture, or other engineering services.

Developed by AWWA in partnership with RCAP and funded by USEPA. Published 2015

Additional AWWA Resources

- Partnership Programs
 - An alliance of six drinking water organizations to improve the quality of water delivered to customers by optimizing water system operations. www.awwa.org/partnership
- eLearning Courses
 - Self-paced, online courses that allow you to learn at your own pace, whenever and wherever you have an internet connection. <https://www.awwa.org/resources-tools/water-knowledge/small-systems/small-systems-training/elearning-courses.aspx>

Additional AWWA Resources

- Small Systems Resource Community
 - Free online portal to tools and discussions of issues and developments related to small water systems. www.awwa.org/smallsystems
- The Water Equation
 - AWWA's Water Equation provides academic and operator scholarships, student programs, and supports the Community Engineering Corp. volunteer program. The Association and its Sections partner to invest in the future of water and the industry's workforce. For more information, go to www.awwa.org/we

Today's Workshop

- Interactive review of the skills needed to solve today's challenges to providing safe water
 - Includes the most common problems and challenges
 - Discover the most effective field-tested solutions
 - Topics include: Regulatory compliance, Distribution Systems, Disinfection, Flushing, Main Breaks & Cross Connection Control and Source Water Protection
- Networking – Important component of training
 - Learn from wealth of experience in the room

Certificates of Completion

If you need a CEU certificate, you will need to confirm the following on the roster today before you leave:

- Is your name clearly spelled correctly?
- Did you provide an email address UNIQUE TO YOU? (do not use "info@" type of email address)
- You must have an account on awwa.org to receive a certificate from AWWA and the email address you provide on the roster must match the email address registered to that account.
 - If you do not have an account on awwa.org or if the email address you provide on the roster does not match the email address on your account, we will not be able to issue you a certificate until you create an account or update the email address on your account to match the email you provide
 - If you have any issues with registering on awwa.org please contact Customer Service at 800.926.7337 or at service@awwa.org

If you have questions about receiving or accessing your certificate, contact educationservices@awwa.org

AWWA will apply to the water operator state licensing agency for CEU preapproval when applicable. You may be awarded CEUs by your agency. It is your responsibility to confirm with the agency that training meets relevancy criteria established for your license type, as some agencies may not apply CEUs to your license if the training topic is not relevant to your position.

AWWA awards: 0.1 CEU = 1 contact hour or 1 Professional Development Hour (PDH)

Questions? Please contact educationservices@awwa.org.

Logistics

- Bathroom(s) –
 - Cell phones – silent
 - Break times
- Feel free to ask questions
at **any time**

Introductions

1. Name
2. Organization
3. Title/Job
4. Water Source (GW or SW)
5. Disinfect – Or not
6. Something interesting about yourself, not work related (family, hobby)

Pre-Test

- Required to capture pre-workshop knowledge levels in order to measure change in learning.
 - (Post-Test following workshop.)
