Water Quality Control Division

Department of Public Health & Environment

New distribution location in Pueblo and shipping options for FREE non-medical masks.

The state is sharing a message from CoWARN

[Sign up form is now open](#) (will close at 5 p.m. Wednesday May 20)

"After receiving initial responses for non-medical masks requests, CoWARN has added an additional distribution center in Pueblo and utilities have offered to ship the masks for utilities who need it.

The Colorado Rural Water Association's headquarters in Pueblo, CO, will have masks available. If this is a convenient option for your utility, please email CRWA directly at crwa@crwa.net.

Denver Water and Parker Water and Sanitation District have generously volunteered to cover the cost of shipping to any utility that needs masks. If you would like masks shipped to you, please fill out [this form](#) by 5 p.m. on **Wednesday, May 20**.

The CoWARN Steering Committee would like to thank Denver Water, Parker Water and Sanitation District, and the City of Grand Junction for volunteering their time and resources to help protect water and wastewater employees in Colorado. Your efforts are greatly appreciated."
