Register Today!

Event Description: This Training event jointly sponsored by RMSAWWA and New Mexico Rural Water Association will provide an overview of AWIA and the steps your utility can take to update its Emergency Response Plan so that it will be prepared. A key element to being prepared is knowing how to respond to cybersecurity threats.

This training event will feature interactive exercises in which participants will:
- Evaluate their utility’s Cybersecurity Risk
- Begin to update their Emergency Response Plans to meet AWIA requirements

This event will include the following elements:
- Review of AWIA requirements, recommendations, and timetables
- Review of the Incident Command System (ISC) for responding to emergency situations and resources
- NM Water/Wastewater Agency Response Network (NMWARN) can provide
- Cybersecurity Risk Management – Answers to 22 easy questions that will identify a utility’s risks and measures for mitigating these risks
- Building a Human Firewall – How to guard your organization against phishing
- Updating your Emergency Response Plan; an orderly approach that satisfies AWIA mandates

Questions about registration: Contact the Rocky Mountain Section AWWA office.
